

# INNOVATION IN EDUCATION CONSTRUCTION SYMPOSIUM

June 6, 2019 • Concord, NH

JOIN US

Join us for a panel discussion with industry experts who will share insights on new and emerging trends in school construction. Panelists and speakers will discuss collaborative project delivery methods, building information modeling (BIM), prefabrication, and lean and green construction and explain how each can impact you – whether you're a school official, project manager or general contractor. *Plan to stay after the presentations to network with panelists, speakers and colleagues.*
